

# India's economic recovery gains momentum in recent months: PHDCCI

New Delhi, Nov 8: India's economic recovery gained momentum in recent months on the back of rapid progress in vaccinations, festive season and consequent improvement in consumer and industry sentiments, industry chamber PHDCCI said on Sunday.

The PHDCCI Economy GPS Index for October 2021 increased to 131 as compared with 113.1 in the previous month. During the April-October 2021 period, it stood at 114.8 as compared with

78.7 in the previous financial year, the chamber stated.

However, its President Pradeep Multani said that at this juncture, there is a need to address the high commodity prices and shortages of raw materials to support the consumption and private investments in the country.

The drivers of household consumption need to be further strengthened to enhance the aggregate demand as it will have an accelerated ef-

fect on the expansion of capital investments, said Multani.

The PHD Chamber of Commerce and Industry (PHDCCI) Economy GPS Index is a composite index of three lead economic and business indicators with a base year at 2018-19=100, which measures the broad economic and business activity.

The PHDCCI Economy GPS Index, based on the monthly values of three high-frequency indicators viz., GST collection (Rs

crore), passenger vehicle sales (units) and Sensex (daily average), helps to find the direction of the economy.

GST collections indicate the momentum of business activity, passenger vehicle sales is a broad indicator of demand activity in the economy and the movement of the Sensex indicates the mood of both domestic and foreign investors, the chamber said.

# India ready to move into next orbit of growth: SBI Chairman

Dubai, Nov 8: India is ready to move into the next orbit of growth with the hugely successful implementation of the COVID-19 vaccination program, State Bank of India (SBI) Chairman Dinesh Kumar Khara said on Saturday.

The kind of vaccine drive the country has seen makes all the Indians proud, especially because the domestically produced vaccine is being used in a big way, Khara said at the India Pavilion at EXPO2020 Dubai.

"Actually, it (rapid vaccination) has enhanced the confidence level of the common man as well as the economy," he said.

India recently achieved a major milestone in its vaccination pro-

gramme against COVID-19 as the cumulative vaccine doses administered in the country surpassed the 100-crore mark.

"The country has lived through one of the most challenging times and has come out of it in a very successful manner that gives the confidence that going forward, the journey should be rather easy, and we should be having a huge opportunity for growth...which I am sure will go a long way in terms of meeting the common man's aspirations," he said.

The credit growth in the economy was quite muted for almost two years, he said, expressing hope that the capacity utilisation will improve, and help revive investment demand in the corporate

sector.

"The government has done a wonderful job by continuing its focus on infrastructure investment, which has gone a long way in terms of giving a push to the core sectors of the economy. And with private corporate sectors coming with the investment, the economy will certainly move to the next orbit of development," he added.

On the India Pavilion, Khara said it is presenting the real India, which is full of opportunities, to the whole world in an impressive manner.

# Flipkart, Moj announce collaboration for Video and Live Commerce

Chennai, Nov 8: Flipkart, India's homegrown e-commerce marketplace and Moj, India's largest homegrown short video platform, announced a collaboration to enable Video and Live Commerce experiences at scale. This will help Flipkart to scale video commerce in the country and

engage the next 200 million e-commerce customers. Moj has the highest monthly active user base of over 160 million members, making it the largest among all Indian short-form video platforms today. Besides making e-commerce accessible to millions of first-time users, this collaboration also incentivises content creators in the Moj ecosystem

by enabling new commerce-led revenue streams to deepen socio-economic impact.

Speaking about the collaboration with Moj, Ravi Iyer, Senior Vice President and Head, Corporate Development, Flipkart, said, "The rise of short-form video as a preferred content format across India today has created the right

opportunity for us to pursue Video and Live Commerce at scale. The strategic collaboration between Flipkart and Moj will play a key role in onboarding the next 200 million e-commerce users while creating an ecosystem that benefits all stakeholders involved - from brands and sellers to content creators. Given the diverse cultural fabric of our

country and with the intention to offer an inclusive e-commerce experience to every consumer, we continue to bridge the gap between audiences through our regional language interface experience which has played a key role in onboarding first-time consumers."

# Dhanteras demand surge for precious metals in tier-II cities ahead of tier-I: Survey

Chennai, Nov 8: Just Dial, India's no.1 hyper-local search engine witnessed a significant QoQ 20% jump in demand for precious metals with demand for gold remaining high, almost at 3X of silver during this festive season. The demand surge for precious metals in Tier-II cities remained higher in vis-à-vis Tier-I.

Gold prices have fallen since reaching the peak in August 2020 and this festive season

have remained the most searched precious metal on India's No.1 local search engine, reports the latest Just Dial Consumer Insight Report. While demand for gold was 3X of silver, the latter saw the highest QoQ growth in demand of 30% while demand for both gold and diamond saw a growth of 18%.

Commenting on the consumer behaviour, Prasun Kumar, CMO, Just Dial, said "Correction in gold prices and strong demand triggered by the festive season across the country, have made the yellow metal the most sought after. On Just Dial, demand for gold in Tier-I cities remained high but it was also interesting to witness a faster growth in demand in Tier-II

cities led by Lucknow, Jaipur, and Coimbatore. With volatility in the market, we will see more and more consumers investing in gold for security reasons. Besides, the rise in demand for other precious metals such as silver and diamond are also encouraging."

For gold, silver, and diamond, demand growth rate in Tier-II cities remained higher than Tier-I cities. In terms of gold, demand growth rate in Tier-II towns (24%) remained marginally ahead of Tier-I cities (22%). For silver, Tier-II cities (40%) saw 2X growth rate vis-à-vis Tier-I (20%) while demand for diamond also remained higher in Tier-II cities (38%) compared to Tier-I cities (14%).
